10. Cable, cable bunchers, cable rollers and extensions

Schutzschlauch Systeme Protective conduit systems

WEEE exemptions:

1. Installations devices and components (meters in households), IT- and telecommunication products, fix installed with the building *
2. Production devices and components
3. Fix located big tools
4. Measuring, inspection and control systems as part of a processing unit
5. cable, cable bunchers, cable rollers and extensions
6. Light bulbs, lights in households

* Fix installed with the building means those products are part of the building (Installation device)

2. Relevance of RoHS und WEEE for Flexa products

Our products supplied to you do not fall under the scope of Directive 2002/95/EC ("RoHS"). They also will not be incorporated – according to our knowledge – into products falling under the scope of this directive.

Our standard products, however, are manufactured with RoHS-matching materials, status 2009.
